"Headlights" and "Carhartts" in all sizes, 32 to 52, in coveralls and bib overalls, khaki and blue.

B. M. ROBERTS

THE MAN WHO DOES THINGS

First Load Wheat From Louis Miller

Louis Miller delivered the first load of 1925 wheat in Champion on Saturday, August 22. It was delivered to the National elevator and graded No. 4. Incidentally Mr. Miller captured the side of bacon offered by H. E. Gill, of the Champion Meat Market, to the farmer delivering the first load of 1925 wheat.

The second and third loads of wheat to reach this market were delivered to the Alberta Pacific elevator by W. S. Gorsche and U. P. Ulfsten, the former grading No. 2 and the latter No. 3.

Start Children At School Opening

In order to permit of the most efficient work on the part of the school staff parents are urged to send their children to school on the first day it is opened, those in the high school grades and those who are beginning, otherwise much time is lost. School opens on September 1st and children who will be six years old by January 1st may be sent to school. In this connection the board wishes to impress upon parents the fact that only one new class is opened each year, as those eligible to begin the first of the year should be started now, as stated above, if parents wish them to begin before next midsummer.

Millinery Opening September 4-5

Mrs. M. A. Theriault has a treat in store for the ladies of Champion and district in her millinery opening which occurs on Friday and Saturday September 4 and 5. Many new colors will be featured this year and attractive shapes, which have a tendency to be slightly larger. Mrs. Theriault has made a larger selection than usual and her opening display should not be missed by the ladies of this vicinity. Remember the dates, Sept. 4 and 5.

The Ladies' Aid will meet at the home of Mrs. W. C. Hoskins on Thursday, September 3rd. After a holiday of two months a large turnout is expected.

Consolidated School Staff Is Practically Complete

Miss Tory, of Calgary, replaces Miss Gilbert in the primary grades when school opens, and a successor to Miss Ciesky is being chosen from a large number of applicants. The remainder of the staff, Principal Spence, Miss Gooderham and Miss Woodhull, is unchanged.

Miss Rachel Smith is spending her holidays with Mr. and Mrs. Appleby in Calgary.

North of 36 comes to the Champion Theatre this week and picture fans are anticipating another big evening.

The description under the heading of Municipal District No. 158, is altered in the notice to ratepayers with regard to the municipal hospital.

"We're ready to serve you"

"NORTH OF 36"

Friday @ Saturday
August 28-29

With JACK HOLT, ERNEST TORRENCE, LOIS WILSON, NOAH BEERY—Its North for Me! said Taisie Lockhart, when news came of a cattle market North of 36. And a handful of faithful cowhands went with her. Across a thousand miles of unbroken trails—driving a herd of 4,500 cattle. Crossing turbulent rivers, fighting fierce stampedes of the maddened loughorns, resisting furious Indian attacks and desperate outlaws. And finally struggling through to glorious victory. Here is the most enthralling story of the pioneer West since The Covered Wagon—and the most appealing romance.

COMING NEXT WEEK. BARBARA LA MARR IN "SANDRA"

THURSDAY, AUG. 27, 1925

NOTES AND COMMENT.

The Municipal Hospital proposal is worthy of the closest attention from the ratepayers affected. Twenty dollars per section is not very much, perhaps, but what are you going to get for it?

Joint operation of the E. D. and B. C. by the C. N. R. and C. P. R. is sought, but failing this arrangement the provincial government and C. N. R. may undertake it.

The bye-election in Medicine Hat is being looked forward to to provide light on the political situation in the province. There will be three candidates, liberal, conservative, and labor, the latter endorsed by the government.

The variations in temperature experienced here recently certainly offered something to please almost anybody at some portion of some day. This is not saying that everybody is pleased, by any means.

This is the period of the year when victims of hay fever have their worst experience. It is strange that no remedy has been discovered for this peculiar affliction, which is attributed to pollen from plants.

Every possible effort is being made to avert a continued strike of the anthracite miners in the United States. Naturally, a tie up in such an industry is nothing short of a national calamity.

While the number of tourists on the road are decreasing there is still a sprinkling of foreign cars passing through here. It will not be very long until many people will be spending most of their lives on the road and in tourist camps, that is if the traffic continues to grow at the present rate.

J. J. Gibbons, head of an advertising agency which bears his name, has written a series of letters to Premier King which have been forwarded to the different newspapers in this country. Mr. Gibbons wants a tariff wall around Canada that would keep everything out. Here we are of the opinion that we are paying so much more for everything than is paid across the line that if trade cannot be kept in Canada without prices being raised higher to the consumers it will have to go.

"Bear ye one another's burdens," advises Mr. Whiston, the government advocate of municipal hospitals. If his hospital scheme goes through here there will be lots of opportunity to follow his advice, at least there will be plenty of burdens as far as taxation goes.

In the village of Champion thirty per cent of the population will derive no benefit from

the hospital proposed for this district without payment of \$10 per year from each family or individual. This is worth thinking over as it makes the hospital rate pretty high for the balance of the residents.

There is much more to local advertising than effort to present something at a low price. It conveys the assurance that the needed goods are stocked and that the merchant is making an effort to provide real service to his customers. The merchant who has nothing to advertise in those days of declining prices and mail order catalogues may well be regarded with suspicion by his customers.

The wheat is rolling! A number of outfits are in operation in this vicinity and grain is reaching elevators in a steady stream. Both grades and yields are holding up to expectations and in some cases doing rather better. Once more everyone is optimistic. What a wonderful country this is!

Why Is Hay Fever?

An eastern newspaper suggests that men of medicine turn their attention to hay fever. There is no doubt that a remedy for this distressing and mysterious malady would prove a great blessing for a large number of persons throughout the world. We call it a mysterious malady because it is so. What is its cause and why must its victims suffer annually in spite of all they do to prevent its recurrence? Those upon whom it has laid its hold know almost to a day when they will be called upon to again endure its agonies.

Because hay fever is more prevalent in August than in any other month, it is popularly supposed that pollen from flowers is the cause. But why pollen from August's flowers and not from those blooming in other months of the year? To answer that the adherents of the pollen theory pick on the golden rule. But hay fever claims its victims in places where there is no golden rod and residents of large cities who never are within miles of that popular wild flower at any time often suffer the most severely. And if pollen is the cause of the disease why are not all who live in the country afflicted and all who live in the city immune?

The writer who suggested that physicians turn their attention to hay fever, may or may not be a sufferer but in any event he puts up to them a puzzle worthy of their fullest consideration. That it is not ordinarily a real malady does not make the hay fever problem less important. The fact that it seemingly is such a simple and more or less harmless affliction makes it seem that the answer to the problem should be easy to discover. Seemingly of a similar nature to influenza, it is not so often fatal, but it causes a great amount of suffering each year.

The very mysteriousness of the disease should be a sufficient motive to cause some physician to determine to conquer it.—Ex.

The 1,004 concerns in Canada engaged in the manufacture of iron and steel and their products in 1924 had a combined production valued at \$388,470,650, according to a preliminary statement of the Dominion Bureau of Statistics. The industry represents a total capital investment of \$535,520,838.

In Rod and Gun in Canada for September, a new series of British Columbia sporting articles from the pen of A. Bryan Williams commences. This series is entitled Breeze from the West, and the first part in the new issue promises a number of hunting and outdoor yarns of the first water. A nature story of a more unusual nature for the magazine, Shuttlesworth's First Fishing by H. R. Ellis is a most graphic account of a young bear's first lone season. Rod and Gun in Canada is published monthly by W. J. Taylor Limited, Woodstock, Ontario.

Local and General

Cowlin Bros. have purchased J. N. Beaubier's threshing outfit.

Last week provided hot and cold weather in extremes for this time of year.

J. O. Reid shipped a mixed car of cattle and hogs to Calgary on Monday.

Mr. and Mrs. Hammell have moved into the residence formerly occupied by F. Falkins.

J. Fred Scott will be here on Saturday, on which day his visits will be made in future.

Geo. Mark's new implement warehouse is under construction with L. W. Boden in charge.

Don't overlook the "Notice to Ratepayers" in connection with the proposed municipal hospital.

Andy Akers, old timer here, was among recent arrivals in town. He will remain here for the threshing.

Threshing became practically general in this vicinity on Monday, although several outfits threshed wheat on Saturday.

Ole Ranning has just completed wells for Geo. Harper and F. Blatchly, water being secured in both instances in the neighborhood of 100 feet.

All last year's buyers will be in charge of the local elevators this season and everything is ready for the handling of the crop expeditiously.

Houses promise to be at a big premium in town this winter. At the present time every available place is occupied and the demand has not been nearly met.

The last days of the week were particularly busy ones in the stores, preparations for threshing keeping all the merchants and their assistants on their toes.

Among the arrivals this week was M. A. McNaughton, of Waseau, N. Y., who is here on his annual visit. He was welcomed by many old time friends and acquaintances.

Harvesting operations were completed last week in this vicinity in most instances, and the first of this week saw practically everything in stock ready for the threshers.

Mr. and Mrs. J. C. Collins and family left on a motor trip through the Kootenay country on Thursday evening of last week. They will spend from two to three weeks on the trip.

Some of the material is on the ground for Geo. Mark's new implement warehouse and construction will begin in the near future. The structure will be frame, covered with corrugated iron.

R. Tyler has a line of John Deere and Cockshutt trucks which is proving very popular with purchasers this fall, some dozen having already been disposed of. They are well worth looking over.

Mr. and Mrs. A. W. Jopling spent the week end in Calgary. Frank Johnson, of Arrowwood was a visitor in town this week.

F. Trevelick and S. Jopling, of Milo, were visitors here this week.

Misses Lillian and Kathleen are home from two weeks at Waterton Lakes.

Mrs. Lawrence, of Princeton, Ont., is on a visit to her brother, J. T. Stephenson and family.

Eileen and Ray Hyndman spent a portion of their holidays with their Uncle at Carmangoy.

Mrs. Horace Gill and children will leave for the coast shortly, where they will spend the winter.

Miss Rae Wilson, of the Lethbridge Conservatory of Music, resumed her classes here on Tuesday.

It is estimated the century mark has been passed in the number of new cars purchased in this district this year.

While men have been plentiful since the arrival of the excursionists, household help is still in demand as always.

Lee Milliken had the misfortune to lose one finger, with two others badly cut, while helping with repairs to a pump at his father's farm.

Seventeen members of the W. I. visited Brant W. I. on Thursday and returned more than pleased with their reception and entertainment.

Mr. and Mrs. W. J. Duffy and children, of Calgary, who have been the guests of Mrs. M. Simpson for the past three weeks, left for home last Thursday.

Mrs. J. N. Beaubier left on Saturday for Grand Prairie and will visit all the O.E.S. Chapters in northern Alberta before returning south, in her capacity of Grand Matron.

Annual Stocker And Feeder Show

The third annual Alberta Stocker and Feeder Show and Sale will be held in the Alberta Stock Yards, Calgary, on October 19th and 20th next. Approximately 1200 of the best stockers and feeders were shown at last year's show and all were sold through the sale at prices satisfactory to the contributors. A class for three-year-old steers has been included this year and the prize money increased to more than \$7,000.00. Feed conditions are excellent and no doubt there will be a satisfactory demand for feeder cattle this fall. Any exhibitor interested in the yards or the manager will be glad to answer all enquiries in regard to any details not included in this letter.

Sweet Clover For Hay

There has always been some diversity of opinion with regard to the value of sweet clover for hay, and while it is generally considered to be quite palatable and nutritious if cured at the proper stage, it is safe to say that it is more difficult to cure and less palatable than alfalfa. The leaves dry up much more quickly than the stems, with the result that by the time the crop is dry and ready for storage, a large proportion of the leaves will have been shattered through handling. Since the spring growth is very rapid, the best cutting is usually ready before the weather has become settled, and proper curing is therefore made more uncertain. When grown on very rich soil, the growth is likely to be rank and coarse, the plants often reaching a height of two to four feet even before the buds appear. Hay made of this coarse material will cure with difficulty and make poor hay.

Under these conditions, it might be well to clip the crop back earlier in the season. If clipped back in the early spring, leaving rather a high stubble, the quality of the crop can be greatly improved by forcing a new growth of fine shoots from the basal stems.

The bitter flavour in the leaves of sweet clover, due to its containing coumarin, is objectionable, but not sufficiently so to interfere to any great extent with its feeding qualities. A considerable quantity of this coumarin is liberated during the process of curing. While some animals do not relish sweet clover hay at first, feeders have been demonstrated that they acquire an appetite for this hay,

Notice to Ratepayers

In accordance with the terms of The Municipal Hospitals Act, petitions were received by the Minister of Health, Edmonton, asking for the creation of a Municipal Hospital District including the territory described below.

Complying with these petitions, the Minister of Health established the Municipal Hospital District on June 15, 1925. Following the establishment of the District the Municipal Council in the said District, in accordance with the terms of the Act, duly appointed a Hospital Board to prepare a scheme for the building and operating of a Hospital in the said district.

The Hospital Board met and prepared the scheme outlined below. This scheme is now, under the direction of the Minister of Health, to be advertised throughout the said District for a period of fourteen days, following which, providing all other Municipalities have complied with the scheme, it will finally be approved and a date fixed not exceeding thirty days from the date of such approval, upon which the ratepayers of the said District will be called upon to vote for the adoption or rejection of the said scheme. The territory included in the Hospital District is as follows:

Municipal District No. 127
That portion of Township 15 and 16, Range 21, West of the 4th, lying west of Lake McGregor.

Municipal District No. 128
Township 15, Range 22, 23 and 24, West of the 4th, and Township 16, Range 22 and 23, West of the 4th.

Municipal District No. 129
Township 15, Range 25, West of the 4th, excepting Sections 5, 6, and 7.

Municipal District No. 157
Township 17, Range 21, West of the 4th, lying west of Lake McGregor.

Municipal District No. 158
Township 17, Range 24, 25, and 26, excepting therefrom sections 5, 6, 7, 8, 17, 18, 19, 20, 30, and 31.

Municipal District No. 159
Township 18, Range 24 and 25, West of the 4th Meridian.

Municipal District No. 169
Township 19, Range 21, West of the 4th Meridian.

Village of Champion
The Town of Vulcan

The basis of the Scheme is as follows:

1. To purchase a suitable site subject to the approval of the Minister of Health, at or near the Town of Vulcan.

2. To erect a Municipal Hospital, a duplicate of the Viking Hospital as near as may be, and to equip the same with an operating room and all necessary appliances.

3. To supplement the revenue derived from taxation by a schedule of fees as under:

(a) To persons liable for hospital taxation under any Municipal Act, dependent members of his or her family \$1.00 per hospital day.

(b) Resident persons not liable for hospital taxation under any Municipal Act, upon the payment of the sum of

not less than \$10.00 on or before a date not exceeding one (1) month from the date of the opening of the Hospital and on or before the first (1st) day of February in each succeeding year, \$1.00 per Hospital Day to include dependent members of his or her family.

(c) Operating room free to persons liable for hospital taxes under any Municipal Act and to persons complying with the provisions of Section (b).

(d) Hospital fees to all others shall not be more than \$4.00 per hospital day with an additional charge for drugs and dressings, and the use of the operating room as under:

Minor operations, \$5.00.
Major operations, \$10.00.

4. To create Debenture Indebtedness of not more than \$40,000.00 twenty (20) year debentures for the purpose of erecting and equipping with X-Ray the Hospital building and the purchase of a suitable site.

5. To repay said debentures in equal payments annually of principal with accrued interest, or equal payments of principal and interest combined or as near as may be.

6. As provided by Section (17) of the Municipal Hospital Act, no taxed persons in any town, village or hamlet within the Hospital District shall receive in any year Hospital service at the minimum rate of \$1.00 per day unless prior to the (1) month from the opening of the Hospital or upon a date to be determined by the Board in each subsequent year, he or she pay a sum of money to the Board which together with the sum payable by such persons as Hospital taxation for that year is equivalent to the sum of \$10.00.

The bitter flavour in the leaves of sweet clover, due to its containing coumarin, is objectionable, but not sufficiently so to interfere to any great extent with its feeding qualities. A considerable quantity of this coumarin is liberated during the process of curing. While some animals do not relish sweet clover hay at first, feeders have been demonstrated that they acquire an appetite for this hay,

provided it is not too coarse and here the bright green colour indicative of good curing. At this Farm, it is interesting to point out, that sheep, having access to coarse sweet clover hay harvested in sheaves, as well as from silage, have shown a decided preference for the clover, and continued in excellent condition throughout the winter. They did not eat the coarsest stems.

McCullough Bros. store is open every evening from 8.00 to 9.30.

For Sale—Small Barn. Would make an excellent granary apply to W. C. Hoskins.

Mr. Henderson, of Lethbridge, visited his son, J. D. Henderson, of the Champion Drug Co. during the week.

There has been considerable windy weather since threshing started but to-day (Thursday) is an ideal one for everyone, thrasher or otherwise.

To judge by the appearance of the stores and the amount of fruit being taken countrywards this is preserving season in earnest. Peaches and plums are the big noise just now.

Sweet clover has become the most popular legume in Manitoba, because of its wide adaptation and its general usefulness as a farm crop. Its value as a soil builder has been definitely proven.

Wheat yields are still being quoted from partially threshed acreage in many instances and vary from 12 to 20 bushels per acre. Another few days threshing will likely provide variations in both directions.

Elevator row is the busy section of the town now and the operators of the different houses are out with the glad hand to anyone who looks like a wheat grower. It is remarkable in how many ways the farmer becomes the most popular and sought after man in the country.

CHURCH BULLETIN

Rev. J. Lee announces the following services for Sunday next, August 30:

11 a.m.—Sunday School.
3 p.m.—Service at Blusson School.
7.30 p.m.—Service at Champion.

Mr. Lee will conduct all services, and extends a hearty welcome to all to attend.

If You Want Land A Residence in Champion

Insurance, or

MARBLE WORKS OF ANY KIND

I have some special snaps on hand, especially in town property.

One-half section near town well improved, \$20. per acre.

Three-Quarter section three and one half miles out, \$20. per acre.

Three-Quarter section two miles out, \$21. per acre.

These farms are well improved, and the best in the country, terms reasonable, call and investigate.

September 4th and 5th

Your Inspection will be Appreciated.

MRS. THERRIAULT

Despite assertions to the contrary there has been dissatisfaction with the service rendered by municipal hospitals, particularly with the quality of the medical service. It is doubtful if any of the promoters of these institutions ever have or ever will spend a day in them as a patient if they can help it.

Dog poisoning has not been popular here since 1919, but there was one fatality from this cause this week, viz.—"Bubbles," a relief of bank housekeeping days and widely known canine escort of the editor of this paper.

Joe Kessel, who has spent the summer in Calgary, returned to Champion this week.
